TIMELINE OF ROTHSCHILDS CRIME SYNDICATE DOMINATION OF ENGLAND AND CITY OF LONDON = “THE CROWN”

ROTHSCHILDS CRIME SYNDICATE RUNS THE CORPORATION OF THE CITY OF LONDON = THE CROWN

439 AD — "At a place near Antioch in Syria, the Jews, in derision of the Cross and those who put their trust in the Crucified One, seized a Christian boy, and having bound him to a cross they made, began to sneer at him. In a little while becoming so transported with fury, they scourged (whipped) the child until he died under their hands."

— Socrates of Constantinople (Scholasticus) (380 AD-440 AD), historian wrote in his book "The Historia Ecclesiastica" a recount of the incident of Jews killing a Christian child

1,066 AD-1,067 AD — NORMAN CONQUEST OF ENGLAND by an army of Norman, Breton, and French soldiers led by Duke William II of Normandy, later called William the Conqueror. Supposedly, William soon granted a charter for City of London (677 acres) in 1067 with special rights, privileges and laws including self-government with election rights for thier fiefdom granted by King John in 1199 and 1215 (even though no record exists). Supposedly, around 1189, the City gained the right to have its own mayor (eventually Lord Mayor of London).

1,128 AD The Knights Templar Leader visited England to raise men and money for the Crusades = French nobleman Hughes de Payens, the founder and Grand Master of the order of the Knights Templar.

1,144 AD Norwich: A twelve year-old boy was crucified and his side pierced at the Jewish Passover. His body was found in a sack hidden in a tree. A converted Jew to Christianity named Theobald of Cambridge informed the authorities that the Jews took blood every year from a Christian child

because they thought that only by so doing could they ever return to Palestine. The boy has ever since been known as St. William.

1,154 AD-1,189 AD King Henry II granted the Templars land across England, including some territory by Castle Baynard on the River Fleet in London, where they built a round church, patterned after the Knights Templar headquarters on Temple Mount in Jerusalem. The Templar estate at Cressing Temple in Essex was one of the very earliest and largest Templar estates in England. The Templars also were given the right to nominate the clergy of St Clement Danes.

1,159 AD-1,249 AD Much of the land in Strood, Kent which was a royal manor until Henry II gave it to the Knights Templar. The Templars had assembled a range of buildings in Strood by 1,185, which included a timber hall, barns, kitchens and stables. One stone building with a large hall built in 1,240 has survived to the present day. In fact, nearly any site in England which uses the name "Temple," can probably be traced to Templar origins.

1,160 AD Gloucester: The body of a child named Harold was found in the river with the wounds of crucifixion.

1,184 AD the Templars' headquarters was transferred to the New Temple or Temple Church in London where once again they built a round church, this one patterned after the Church of the Holy Sepulchre in Jerusalem, and in 1185 became the location for initiation rituals. By 1185, the Knights Templar owned extensive holdings in London, Hertfordshire, Essex, Kent, Warwickshire, Worcestershire, Salop, Oxfordshire, Cornwall, Lincolnshire and Yorkshire. The Temple Church still stands on the site of the old Preceptory in London, and effigies of Crusading Templars can still be seen there today. The land was later rented to lawyers who use it today as Inner Temple and Middle Temple.

1,185 AD-onward AD Templars were heavily involved in English financial matters and were accused of embezzling taxes collected in the Saladin tithe of 1188 AD. Also, in 1185 AD a hospital was granted to the Knights Templars, for the use of sick persons, founded at Newark, Nottinghamshire.

1,189 AD–1,199 AD King Richard I confirmed the Templars' land holdings and granted them immunity from all TAXES suits. They were even freed from prosecution or being taxed for murders and were free to commit raids and robbery.

1,199 AD King John gave land for the first The Temple Church in the City of London located between Fleet Street and the River Thames, built by the Knights Templar as their English headquarters.

1,199 AD-1,216 AD King John used the Templar temple as the royal treasury with the Knights Templars as his international bankers. The temple was owned jointly by two of four Lawyer Societies, one was called the Honorable Society of the Middle Temp who call their members barristers of the English Bar.

1,199 AD-1,254 AD Baldock in Hertfordshire was a town founded by the Knights Templar and was their English headquarters. The newspaper reported Templar tunnels beneath the town of Hertford, centering on Hertford Castle, where in 1309 four Templars from Temple Dinsley near Hitchin were imprisoned after their arrest by Edward II. It was believed that the tunnels were holding some of the Templar treasure and others believed it was in Royston Cave. In 1842 (300 years later) workmen accidentally stumbled upon Royston Cave under a heavy millstone they found carvings of Knights, but no treasure, perhaps done by a few Templars that worshiped the pagan gods in secret.

1,199 AD-1,216 AD King John had borrowed (Usury Interest loans) substantially from the Knights Templar. King John was resident at the Temple when he gave the rebellious Barons the island of Lundy and land at Huntspill, Cameley, Harewood, Radnage and Northampton.

1,200 AD Pope Innocent III issued a Papal Order giving immunity of persons and goods within the houses of the Knights Templar from local laws to insure the New Temple could be safe royal treasury & repository for the order's continuously growing wealth. These massive financial resources provided the basis for the development of the Templar's English banking facilities that centuries later joined with the Rothschilds Crime Syndicate.

1,200s AD The Honorable Society of the Inner Temple, commonly known as Inner Temple, is one of the four Inns of Court (professional associations for barristers and judges) in London. To be called to the Bar and practice as a barrister in England and Wales, an individual must belong to one of these Inns. It is located in the wider Temple area of the capital, near the Royal Courts of Justice, and within the City of London. No one could be a lawyer without membership in one of these societies that also trained them to follow specific so-called Professional rules. The four inns are ruled over by a council made up of the Masters of the Bench (or "Benchers"). The Temple was the property of the Knights Templar until 1,312 when the Catholic Church disowned them (too powerful and wealthy). At one point in 1600s the Inner Temple had 1,700 students.

1,207 AD-1,272 AD King Henry III also took usury loans from the Templars and kept the king's Wardrobe on Templar property. He entrusted Templar knights with military, financial and diplomatic commissions, and even considered being buried in the Temple.

1,215 AD SUPPOSEDLY LONDON IS MADE A SEPARATE ENTITY (CORPORATION) BY THE Magna Carta BUT NO RECORD EXISTS AND THIS IS A LIE! — Magna Carta Libertatum is a charter agreed to by King John of England in 1215 promised the protection of church rights and barons rights, and limitations on feudal payments to the Crown. It was annulled by Pope Innocent III, leading to the First Barons' War. Edward I, repeated the exercise in 1297, this time confirming it as part of England's statute law. There is NO record of any charter, including the Magna Carta, ever establishing the Corporation of the City of London but many argue that because it has for so long been assumed to be TRUE it must be TRUE & VALID (e.g. LIE IS THE Magna Carta states that "the City of London shall have/enjoy its ancient liberties"). The "CITY CROWN" occupies an irregular rectangle of 677 acres with 9,000 or so population in the heart of the 610 square mile 'Greater London' area with almost 9 million people.

1,215 AD SUPPOSEDLY CITY OF LONDON SETUP AS SEPARATE EMPIRE (BUT ZERO PROOF) — IN MAGNA CARTA = A PRIVATE FINANCIAL CORPORATION (NO PROOF OF THIS) = Known as "The City" and is called The Jewish Vatican. A Committee of 12 men rule it and are known as "The Crown" and are not subject to GOVERNMENT (Including Parliament) control. A Sovereign State within London and England and UK. Rothschilds Crime Syndicate are in full control of "THE CROWN" with their APPOINTMENT OF THE Lord Mayor for one year at a time. "THE CROWN" of LONDON CRIME SYNDICATE houses:

*** The Central Bank of England (controlled by the Rothschilds)**
*** All major British banks have their main offices in The City.**
*** 385 foreign banks are located in The City.**
*** 70 banks from the United States are located in The City.**
*** The London Stock Exchange is located in The City.**
*** Lloyd's of London is located in The City.**

*** The Baltic Exchange (shipping contracts) is located in The City.**
*** Fleet Street (newspapers & publishing) is located in The City.**
*** The London Metal Exchange is located in The City.**
*** The London Commodity Exchange (trading rubber, wool, sugar, coffee) is located in The City.**

Every year a Lord Mayor is elected as monarch of The City and he HAS DICTATORIAL CONTROL over British Parliament under TOTAL CONTROL by British ROTHSCHILDS CRIME SYNDICATE that runs the Central Bank of England. NOTE: The Rothschilds have traditionally chosen the Lord Mayor since 1820.

1,231 AD King Henry III establish an endowment for Templar monks and priests including a chapel, altar, or other parts of a church to celebrate masses for the founder's soul. LONDON WAS UP ITS NECK IN TEMPLAR BANKSTERS — The first Templar House in England was in London. Early patrons included King Stephen of England and Queen Matilda.

1,239 AD-1,307 AD King Edward I had accorded the Knights Templar a slighter role in public affairs, financial issues and chose the BLACK NOBILITY of Italy for trade, banking, and diplomacy.

1,255 AD Lincoln, England: A boy named Hugh was tortured and crucified by the Jews. The boy's mother found the body in a well on the premises of a Jew named Jopin. 18 Jews were hanged for the crime by King Henry III.

1,272 AD-1,307 AD Jews Expulsion from England by Edward I was due to their crimes of blood ritual murders and secondarily their money lending usury.

1,283 AD Edward I raided the Jewish and templar treasury to wipe out the massive monarch debts and have wealth for the monarchs. This is when many of the Templars woke up and set up their wealth in both Switzerland's caves and in Scotland (because in Scotland, just next door to England, they had a place with ZERO relationship to the Catholic Church).

1,290 AD Oxford: Administrative records preserve Edward I, June 18, 1290 Edict of Expulsion that contains an order for the delivery of a Jew named Isaac de Pulet for the murder and blood-letting of a Christian boy. Only one month after this, King Edward I issued his decree expelling the Jews from England. Source: Ariel Toaff, Bloody Passover-Jews of Europe and Ritual Homicide. J. C. Cox, Norfolk Churches; Victoria County History of Norfolk, 1906; Arnold Leese, Jewish Ritual Murder In England; Henry III, Close Roll 16; Joseph Haydn, Dictionary of Dates.

1,307 AD King Edward the II did not believe Philip IV, King of France accusations at first about the Templars but when Pope Clement V began shutting down the authorization for the Templars, Edward ordered the seizure of members in England and only a handful of Templars were duly arrested. Most were released but William de la More refused to bow to the Catholics and remained a prisoner in the Tower of London until his death. In 1314, under further pressure from King Philip IV of France, the Pope Clement V officially disbanded the Order. Clement issued a Papal Bull which granted the lands of the Templars to the Knights Hospitaller, but this was ignored. Starting in 1347, the Hospitaller priests started renting part of the English Temple to lawyers evolving into the Inner Temple and Middle Temple as Inns of Court.

1,307 AD-1,308 AD, the Templars went unmolested in England. During this period many fugitive Templars, seeking to escape torture and execution, fled to apparent safety in Switzerland, and London, or to even safer Scotland. In 1309 a few half-hearted arrests were made with releases quickly

following as long as the Templars promised to stop pagan worship. Most Templars in England were never arrested, and the persecution of their leaders was brief. Most Templar lands and assets were given the their sister organization, The Hospitallers, and large numbers of Templars joined the Hospitallers and some went to Scotland.

1,381 AD The Templar Temple was almost entirely destroyed in the Peasants' Revolt also called Wat Tyler's Rebellion or the Great Rising. It was a major uprising across large parts of England over anger at the poverty, taxes, and mistreatment of the masses and multiplied by the Black Death of the 1340s. The final trigger for the revolt was when in Essex they attempted to collect unpaid poll taxes. A wide spectrum of rural society, including many local artisans and village officials, rose up in protest against their serfdom, burning court records.

1,647 Under the Dutch Republic William Stadholder, a handsome Dutch army careerist, had money problems so the Jewish banksters of Amsterdam saw another opportunity and through their influence arranged for William's elevation to Captain General of the Dutch Forces. The next step up the ladder for William was his elevation by the Jews to the aristocratic title of William, Prince of Orange. He soon married into the British Royals to become King representing Jewish interests.

1,649 AD OLIVER CROMWELL FINANCED BY THE JEWS – had King Charles I beheaded = JEWISH BANKERS FROM AMSTERDAM led by the Jewish financier and army contractor of Cromwell's New Model Army, Fernandez Carvajal and assisted by Portuguese Ambassador De Souza, a Marano (secret Jew), saw an opportunity to exploit in the civil unrest led by Oliver Cromwell in 1643. Exploiting a stable Christian society of ancient traditions in London binding the Monarchy, Church, State, nobles and people into one solemn bond by disruption using the recent Calvinist Protestant uprising. The Jews of Amsterdam exploited this civil unrest and made their move. They contacted Oliver Cromwell in a series of letters:

1,647 AD "In return for financial support will advocate admission of Jews to England: This however impossible while Charles (is) living. Charles cannot be executed without trial, adequate grounds for which do not at present exist. Therefore advise that Charles be assassinated, but will have nothing to do with arrangements for procuring an assassin, though willing to help in his escape."

— Cromwell To Ebenezer Pratt of the Mulheim Synagogue in Amsterdam, 16th June 1647

1,647 AD "Will grant financial aid as soon as Charles removed and Jews admitted. Assassination too dangerous. Charles shall be given opportunity to escape: His recapture will make trial and execution possible. The support will be liberal, but useless to discuss terms until trial commences."

— To Oliver Cromwell From Ebenezer Pratt, 12th July 1647

1,649 OLIVER CROMWELL had King Charles I beheaded clearing the way for Jews return to the City of London.

1,655 AD Cromwell, through his alliance with the Jewish bankers of Amsterdam and specifically with Manasseh Ben Israel and his brother-in-law, David Abravanel Dormido, initiated the resettlement of the Jews in England.

1,677 AD Jews then arranged a meeting between William and Mary, the eldest daughter of the Duke of York. The Duke was only one place removed from becoming King of England. Princess Mary of England married William Prince of Orange to place William upon the throne of England it was necessary to get rid of both Charles II and the Duke of York who was slated to become James II of the Stuarts. It is important to note that none of the Stuarts would grant charter for an English national bank. That is why beheading, murder, civil war, and religious conflicts plagued their reigns controlled by the Jewish bankers.

1,683 AD — The City of London Corporation had its privileges stripped by Charles II in 1683, but they were later restored and confirmed by Act of Parliament under William III and Mary II in 1690, after they did away with Charles with the BIZARRE name, the Glorious Revolution. The Glorious Revolution, also called the Revolution of 1688, was the overthrow of King Charles II of England (James VII of Scotland) by a union of English Parliamentarians with the Dutch stadtholder William III, Prince of Orange, some Whig leaders were executed or forced into exile.

1,685 King Charles II died and the Duke of York became King James II of England. Jewish banksters celebrated.

1,688 the Jews ordered William Prince of Orange to land in England at Torbay. Because of an ongoing Campaign of L'Infamie against King James II contrived by the Jews, he abdicated and fled to France. William of Orange and Mary were proclaimed King and Queen of England.

1,688 AD-1697 AD King William III (the BANKSTER PUPPET) soon got England involved in costly NINE YEAR WAR with CATHOLIC FRANCE which put England deep into debt to which is exactly what the Jewish bankers' planned and then collected BIG TIME. King William, under orders from the Jews in Amsterdam, persuaded the British Treasury to borrow 1.25 million pounds sterling from the Jewish bankers who had helped him to the throne. Since the state's debts had risen dramatically, the government had no choice but to accept the Jews terms and that included keeping the names of the lenders secret and that they be granted a Charter to establish a Central Bank of England. Parliament was forced to accept these Jewish banksters terms and allowed the Jewish BANKSTERS to sink their tentacles into Great Britain for good with the BANK OF ENGLAND as the parasites perfect HOST!

1,689 AD-1,694 AD Joint monarch of England, Scotland, and Ireland was Mary II & with her husband and first cousin, William III of Orange (the Bankster puppet).

1,694 AD-1,702 AD William the Orange, the bankster puppet scoundrel, became sole ruler upon Mary's death in 1694 and Jews got their CENTRAL BANK OF ENGLAND on July 27, 1694 before Mary II died of smallpox.

1,750 AD-1,806 AD ENTER THE ROTHSCHILDS under the old name MAYER AMSCHEL BAUER who OPENED a money lending business on Judenstrasse (Jew Street) in Frankfurt Germany and changed his name to Rothschild. Mayer Rothschild had five sons and sent the most ruthless and conniving son, Nathanael, to London to establish a bank with funding taken from the British East India Company which Mayer Rothschild had significant control over. Mayer Rothschild lesser four sons setup similar scams in Frankfort, Paris, Naples, and Vienna.

1,800s AD for following 100 years the Templar Temple was restored with added buildings constructed including a Library. During WW II the area was destroyed, and was rebuilt by 1959, and today the Templar Temple is a flourishing and active Inn of Court, with over 8,000 members. The Middle

Temple Inns of Court is bases of the English legal profession.

1,804 AD Freemasons claim TEMPLARS are still a modern organizations such as the Sovereign Military Order of the Temple of Jerusalem (SMOTJ), also known as the "Ordo Supremus Militaris Templi and a United Nations NGO (Non-Governmental Organization) and admits that their group was founded in 1804, "based on the traditions" of the pagan medieval order of the Templars.

1,814 Nathanael Rothschild saw an opportunity in the Battle of Waterloo. Early in the battle, Napoleon appeared to be winning and the first military report to London communicated that fact. But the tide turned in favor of Wellington and a courier (pigeon likely) delivered to Nathan Rothschild in London, the news of Wellington's victory on June 20, a full 24 hours before anyone else knew, because Wellington's slower human courier did NOT arrive until the following day in London. On June 20th Nathan Rothschild deviously began spreading the rumor that Britain was defeated with everyone believing the sneaky Rothschild. To make sure Nathan Rothschild began to sell bits of his stock to feed the false rumor on the English Stock Market. Traders assuming Rothschilds knew something they did not, and they panicked and began massive selling causing stocks to plummet to practically nothing. But Rothschilds had his staff ready to buy up everything in sight and did so at ROCK BOTTOM PRICES. The MASSIVE ROBBERY gave the Rothschild family complete control of the British economy including the BANK OF ENGLAND. He forced England to set up a revamped Bank of England with Nathan Rothschild in control. Source: Frederick Morton, The Rothschilds; Benjamin Disraeli, Coningsby

1,901 AD-1,909 AD BRITISH CROWN took control of AMERICA during TEDDY Roosevelt, as City of London Rothschilds CROWN agent J. P. Morgan, took over 25% of US businesses.

2,004 Article in The London Times, one modern group in Hertfordshire (not affiliated to OSMTH) claims that although the medieval order officially ceased to exist in the early 14th century, that the majority of the organization survived underground. The Times article states that the group in 2,004 had written to the Vatican, asking for an official apology for the medieval persecution of the Templars. In 2004 in Rome, a Vatican spokesman said that the demand for an apology would be given "serious consideration". However, Vatican insiders said that Pope John Paul II, 84 at the time, was under pressure from conservative cardinals to "stop saying sorry" for the errors of the past, after a series of papal apologies for the Crusades, the Inquisition, Christian anti-Semitism and the persecution of scientists and "heretics" such as Galileo.

2,011- Today, the Freemasons of London admit the Templars philosophy and origins are closely built into the Freemasons. In Scotland it is accepted fact that the Templars evolved into Freemasons though the British deny this to an EXTREME. Freemasons openly honor the Templars and use much of the rituals and symbols.
